

FAMILY FEUD™

FOR 2 TO 11 PLAYERS AGES 8 TO ADULT

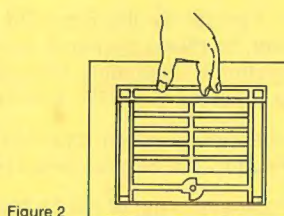

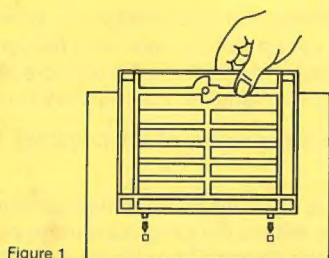

OBJECT: To have the most money at the end of three games by matching the most popular survey answers.

CONTENTS: Game console, legs, strike indicator, 3 "X" markers, play money, game sheet pad with survey questions and answers, scoring sheets, complete instructions.

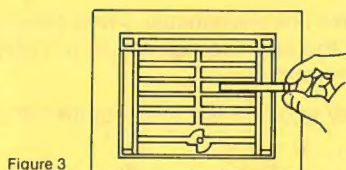

ASSEMBLING THE CONSOLE:

1. Carefully punch out the 10 yellow strips and 4 circles from the cardboard game board and turn the board over, printed side down. Attach the front half of the plastic frame by sliding the long tabs into the holes at the top of the game board (See Fig. 1).

Press the shorter tabs of the frame into the holes at the bottom of the game board (See Fig. 2). Make sure all four tabs are securely in place.

2. Carefully separate the 10 plastic slides and slide them into the 10 windows of the frame (See Fig. 3).

3. Remove the plastic knob and put the short end of the knob into the hole on the bottom of the frame (See Fig. 4). Make sure the arrow on the long end of the knob points straight up.
4. Hold the back half of the frame so the numbers 1 and 2 around the hole face towards you. Position the frame over the knob and press down firmly to lock the knob into position.
5. Slide the two legs into position until they snap into place (See Fig. 5). Carefully place the assembled game console upright on a flat surface.

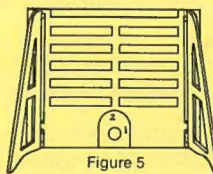

Figure 5

SET UP:

1. Assemble game console according to instructions.
2. Separate the strike indicator and three "X" markers and place them near the console. Separate the money and place within easy reach.
3. Remove the yellow pages from the pad and put them aside. These pages include instructions, questions for a 2-player game and score sheets for the Fast Money Bonus round. The white sheets include survey answers and questions for a 3 or more player game.
4. Choose a player to be the Emcee.
5. The remaining players divide into two teams. If there is an uneven number of players, make the teams as evenly balanced as possible.

EMCEE DUTIES:

The Emcee will set up and read the questions, operate the game console and strike indicator and give out prize money. For a 2-player game, both players share the Emcee duties (see PLAYING FOR 2 PLAYERS).

For a 3 or more player game, the Emcee sets up the game as follows:

1. Place the console so that the back faces towards you. Make sure all players can see the front of the game console.
2. Close all 10 slides and turn the knob to position 1.
3. Tear a white page from the Game Sheet Pad and fold it in half along the dotted line. Questions 1 and 2 MC SIDE should face you. Insert the sheet between the two frames of the console. Make sure the sheet is pushed all the way down.

PLAYING FOR 3 OR MORE PLAYERS:

(For 2 player game instructions, see PLAYING FOR 2 PLAYERS)

Throughout the game, players will try to match their answers with the most popular survey answers. Each game consists of three parts: The Face-Off, The Feud and The Fast Money Bonus Round.

THE FACE-OFF:

A player from each team tries to take control of the question by giving the most popular answer.

Each team chooses a player for the Face-Off. The Emcee reads aloud Question #1. When either of the two players has an answer, he raises his hand. (In case of a tie, the Emcee decides who responded first). He then must answer the question immediately. If his answer matches an answer on the console, the Emcee pulls the corresponding slide to reveal it. NOTE: If a player fails to give an answer immediately he loses his turn.

If the player gives the most popular answer (shown in the top window of the console), that team wins the Face-Off and The Feud round begins (See THE FEUD).

If the player gives an answer that is not on the console, or is not *the* most popular answer, the player on the opposing team gets to answer the question. If the opposing team's player gives a more popular answer, that team wins the Face-Off. If his answer is not more popular, the Face-Off continues as follows:

1. If the second player gives a less popular answer than the first player, the first player's team wins the Face-Off.
2. If both players give an answer that isn't on the console, a new player from each team is chosen to answer the question in the same order as the first two players. In a 3 player game, each player gets another chance, in turn, until a winner is determined.

The Emcee takes the amount of money equal to the total number of points shown in the open slides and places it in front of the console.

THE FEUD:

The winner of the Face-Off continues to play Question #1.

QUESTION #1 — Players on the controlling team take turns guessing the remaining answers to Question #1. Players cannot help each other answer the question. In a 3 player game, the player on the controlling team tries to give all the remaining answers before three strikes are made.

Emcee Duties: When a player gives a correct answer, the emcee pulls the corresponding slide open and adds the dollar value of the prize money to the money already in front of the console.

When a player gives an incorrect answer or takes too long to give an answer (determined by the Emcee), it counts as a strike. The Emcee puts one "X" marker on the strike indicator, beginning with the strike one square.

Winning the Round: If the controlling team gives all the remaining answers to Question #1 without getting three strikes, the Emcee gives that team the prize money.

If the controlling team gets three strikes before all the remaining answers are guessed, the opposing team takes control and is allowed *one guess* to try and match *any* remaining answer. If the opposing team guesses correctly, they win the round. If they don't guess correctly, the team who originally controlled the question wins the round. NOTE: If all the answers to the questions have not been revealed, the team who wins the round only gets the dollar amount equal to the answers on the console.

QUESTION #2 — The Emcee closes all the slides and turns the knob to position 2. A new member from each team is chosen for the Face-Off and the Emcee then reads Question #2 aloud. The game is played the same as in Question #1.

QUESTION #3 — The Emcee closes the slides, turns the knob to position 1 and removes the game sheet from the console. Fold the game sheet inside out and slide it back into the console with Question #3 facing the Emcee. A new player from each team is chosen for the Face-Off and the Emcee then reads Question #3 aloud. The game is played the same as Questions 1 and 2 except the dollar value for each answer is *doubled* on the game sheet.

The player or team with the most money after three questions plays the Fast Money Bonus Round. In case of a tie, both teams will play.

THE FAST MONEY BONUS ROUND:

In the Fast Money Bonus Round, players will choose what they feel are the two most popular survey answers.

Who Plays — If the team consists of one player, that player plays. For two players, both play. For teams of three or more players, the team chooses two players to play the Fast Money Bonus Round. Players cannot help teammates choose the most popular answers.

1. The Emcee takes a yellow score sheet from the pad, turns the knob to position 2 and opens all 10 slides. The survey answers to 5 Fast Money Questions are revealed to players.
2. The Emcee reads aloud Fast Money Question 1. If there is one player playing, that player chooses 2 of the answers shown that he feels are the most popular. If there are two players, each player chooses one answer. Two players on the same team *cannot* have the same answer.
3. The Emcee writes down the point value for the answers chosen by players and announces what their score is. Fast Money Questions 2 - 5 are played and scored the same way.
4. When all 5 Fast Money Questions have been played, the Emcee totals the points for all the chosen answers. If the total is 200 or more, the team wins \$5000. If the total is less than 200, the team wins \$5 for every point scored. For example: If the team's final score is 175, they would win a total of \$875 (175 x \$5).

WINNING:

The team with the most prize money after 3 games wins!

PLAYING FOR 2 PLAYERS:

Both players share the Emcee duties. One player sets up and operates the console and reads the questions aloud. The other player keeps track of both players' prize money. The "X" markers and strike indicator are not used in a 2-player game. Both players need paper and a pencil.

1. The Emcee sets up the console (See SET UP step 4), but *does not* look at the answers on the game sheet while inserting it into the console. You may want to cover the answers with a piece of paper while inserting it, and then remove it after the sheet is in place.
2. Questions for 2-player games are on the yellow pages of the Game Sheet Pad. The Emcee finds the game that matches the game sheet in the console and reads Question #1 aloud and the number of answers there are for that question.
3. Both players secretly write down, in any order, what they think are the survey answers.
4. One at a time, the Emcee opens each slide. When either player sees an answer that matches an answer on his list, he writes down the number (dollar value) to the right of his answer. After all the survey answers have been revealed, the player with the most points gets that amount of money. The other player does not receive any money. In case of a tie, both players receive the same amount of money.
5. Question #2 — The Emcee closes the slides and turns the knob to position 2 and reads Question #2 aloud and the number of answers there are for that question. Question #2 is played the same way as Question #1.
6. Question #3 — The Emcee closes the slides and turns the knob to position 1. Take the game sheet out and *without looking*, fold the sheet inside out and insert it back into the console. Read Question #3 aloud and the number of answers there are for that question. Question #3 is played the same way as Questions 1 and 2, but the dollar value on the game sheet is *doubled*.
7. After Question #3 is played, both players total their score for all three Questions. The player with the most money plays the Fast Money Bonus Round. In case of a tie, both players will play.
8. The Fast Money Bonus Round — This round is played the same as in the 3 or more player instructions. The other player acts as Emcee. If it is a tie game and both players are playing this round, each player writes down the 2 answers they have chosen for each question. When both players are done, the Emcee announces what the dollar values are for each chosen answer.

WINNING:

The player who wins the most money after three games wins!
